HI THERE!

I'M BAHA'

WEB DEVELOPER / ENERGY ENGINEER

I am a highly skilled web developer and energy engineer with a passion
for creating sustainable solutions. With a background in both web
development and energy engineering, I bring a unique perspective to
every project I work on. I specialize in building responsive web
applications and have a deep understanding of energy systems and
renewable energy technologies.

MORE ABOUT ME

What I Do ?

As a web developer:

I have extensive experience with front-end development frameworks
like React and Vue, as well as back-end languages like PHP. I am
proficient in HTML, CSS, and JavaScript and have a keen eye for
design.

In Energy Engineerig:

I'm specialist in solar energy systems from planning to implentation
